Income taxes in the United States are imposed by the federal, most states, and many local governments. The income taxes are determined by applying a tax rate, which may increase as income increases, to taxable income, which is the total income less allowable deductions. Income is broadly defined. Individuals and corporations are directly taxable, and estates and trusts may be taxable on ...

The term income splitting – or, as it's sometimes called, income sharing or income shifting – is used to describe the plans or steps taken to shift income from a higher-tax-rate family member to a lower-tax-rate family member. The family income remains the same but the family income tax burden is decreased, leaving more after-tax income for family living expenses. The idea here is that ...

Income inequality has fluctuated considerably since measurements began around 1915, declining between peaks in the 1920s and 2007 (CBO data) or 2012 (Piketty, Saez, Zucman data). Inequality steadily increased from around 1979 to 2007, with a small reduction through 2016, followed by an increase from 2016 to 2018. 1913–1941. An early governmental measure that slightly reduced inequality was ...
